UKS is Science, Medical Care and University Teaching

The „green campus“ of our University Medical Center covers 3 square kilometres and two thirds (more than a square mile) are forest and recreational areas. The campus hosts more than 38 clinics and institutes. We provide 1,445 hospital beds incl. 82 inpatient beds, 203 intensive care beds and deliver medical care and expertise to more than 50,000 inpatients and 230,000 outpatients (2021). Each year we perform more than 40,000 surgical procedures.

The Saarland University Medical Center employs around 5,000 staff members in the medical, nursing, research and administration sectors. In 2024 our medical centercored 28th place in comparison to 2.000 clinics in Germany.

Department of General Pediatrics and Neonatology

We provide

- **Top level Perinatal Center, Neonatal Intensive Care Unit.**
All preterm neonates, all congenital malformations including gastrointestinal, central nervous system, cardiovascular malformations; Carbon Monoxide therapy, peritoneal dialysis; interdisciplinary prenatal counselling
- **Pediatric Intensive Care Unit.**
Full range of pediatric intensive care including ECMO in cardiology patients and renal replacement therapy
- **Pediatric Neurology, Epileptology, neuromuscular diseases.**
Certified Center for Tuberous Sclerosis;
Certified interdisciplinary Center for Rare Diseases
- Pediatric Endocrinology (Reference center), Diabetology and specialized outpatient clinic for chromosomal aberrations
- Pediatric Gynecology, Certified Center for Child Protection
- Cystic Fibrosis Center, Pulmonology, Allergy Clinic, including hyposensitization
- Pediatric Gastroenterology
- Vascular malformations, hemangiomas
- General Pediatrics, Pediatric Infectious Disease Clinic

Do not hesitate to call Prof. Zemlin or Mrs Stahl if you need further information or english speaking support.

Department for Pediatric Cardiology and Pediatric Congenital Heart surgery Center

We provide

- Diagnosis, treatment and follow-up of patients with any kind of congenital or acquired heart defects in fetal to adult life
- New cardiac catheter laboratory (2016) for diagnostic and interventional cardiology; vascular malformations
- Within the Pediatric Cardiac Center at the UKS, we closely cooperate with both pediatric cardiac heart surgeons, Dr. Migdat Mustafi and Szoll Nagy.
- All kind of catheter interventions in neonates, children and adults with CHD
- Minimal invasive catheter intervention
- (ASD closer under TEE without flourscopy,
- Implanation of biological valve per catheter
- Minimal invasive surgery per small incision
- Fetal Cardiology
- Center for Grown up congenital heart disease
- Center for aortopathies and connective tissue disease

Non-invasive diagnostics
Interventional cardiac catheter
Vascular malformations
Adults with congenital heart defects
Comprehensive cardiac surgery of congenital heart defects in pediatric and adult age

How to find us

travelling by car

From Mannheim or Saarbrücken

Leave the A6 motorway at the Homburg exit and drive towards Homburg, following the signs to the university hospital („Kliniken“ or „Universitätskliniken“).

From Trier or Koblenz

Take the A8 motorway as far as the Neunkirchen/Saar intersection (Autobahnkreuz Neunkirchen/Saar), where you take the A6 and drive towards Mannheim leaving at the Homburg/Saar exit. Further directions as above.

From Karlsruhe/Pirmasens

Take the B10 to Pirmasens, then the A8 motorway, leave the A8 at the Einöd exit and continue on B423 towards Homburg, following the signs to the university hospital („Kliniken“ or „Universitätskliniken“).

Parking

is available at the main entrance of the university hospital campus (Parkhaus). A free bus service operating within the hospital campus from 7 am until 4 pm departs every fifteen minutes. Each of the following departments has a visitor parking area with parking fees: Internal Medicine II, Eye Clinic, Gynaecology, Paediatric Medicine, Neurology, Neurosurgery, Nuclear Medicine, and Forensic Medicine.

Notes

Lined area for notes on page 30, consisting of multiple horizontal dotted lines.

Notes
