Dear colleagues,

It Following the great success of the last years workshops, it is my pleasure to announce the 4th Homburger Neuroendoscopy Week at the Department of Neurosurgery, Saarland University, Homburg-Saar / Germany, under the reputable auspices of the WFNS and the IFNE.

The workshop is divided in two modules, involving endoscopic spine surgery (**MODULE 1**) and intracranial endoscopy (**MODULE 2**). We will provide comprehensive lectures, interesting live surgery cases and hands-on-lessons in animal models and human cadavers.

We are looking forward to welcoming you in Homburg-Saar.

#### SOCIAL PROGRAM

The most popular industrial monument in Germany for international visitors is the World Cultural Heritage Site at the Völklingen Ironworks. In the 2012 Deutschen Tourismus Zentrale (German Tourist Board) questionnaire it was rank 43 of the top 100 places of interest in all of Germany. For us this result is both acknowledgement and incentive.

The Roman Museum in Homburg is a first-class tourist attraction. It gives a very realistic and lively insight into the everyday life of a Celtic-Roman settlement of 2.000 years ago.
