Dear colleagues,

It is my pleasure again to announce the 5<sup>th</sup> Homburger Neuroendoscopy Week at the Department of Neurosurgery at the Saarland University in Homburg, Germany; and I invite you to participate in this event.

The workshop is divided in two modules, involving intracranial endoscopy (**MODULE 1**) and endoscopic spine surgery (**MODULE 2**). We will provide comprehensive lectures, interesting live surgery cases and hands-on-lessons in animal models and human cadavers.

Prof. Dr. med. J. Oertel

### Cranial neuroendoscopy - focus on endoscopic assisted and pediatric neurosurgery

#### MODULE 1

September 19 - 21, 2016

#### MAIN TOPICS IN CRANIAL SURGERY

- History of neuroendoscopy
- Endoscopic third ventriculostomy (ETV)
- Neuroendoscopy in isolated IV. ventricle

- Spine-TIP-System
- Endoscopic cervical approach in spine surgery
- Lateral approach in lumbar endoscopic surgery
- The orange trocar

- ▶ Lectures by international experts
- ▶ Live-surgery
- ▶ Industrial exhibition
- ▶ Hands-on courses in animal models and cadavers
- ▶ Poster sessions

#### Social program

World cultural heritage site Völklingen Ironworks  
The most popular industrial monument in Germany

#### Social program

The Roman Museum in Homburg is a first-class tourist attraction. It gives a very realistic and lively insight into the everyday life of a Celtic-Roman settlement of 2.000 years ago.
