WELCOME ADDRESS

Dear colleagues,

it is my pleasure to announce the

12th Homburger Neuroendoscopy Week

at the

Department of Neurosurgery
Saarland University, Homburg-Saar / Germany,

due to the success of the last years, we offer **3 MODULES** in 2023 again.

MODULE 1 is focused on the interdisciplinary approach to the skullbase in cooperation with our **ENT-DEPARTMENT** of Professor Schick. The new developments in endoscopic skullbase surgery are presented to you by an international faculty. Additional **HANDS-ON COURSES** will provide demonstrations of endoscopic techniques as well as time to enhance your own surgical skills on **HUMAN CADAVERS**. Interdisciplinary **LIVE SURGERIES** will be presented to you in HD-technology and in an interactive setting.

MODULE 2 will focus on intraventricular endoscopy and pediatric neurosurgery. **HUMAN CADAVERS** and **ANIMAL MODELS** are also included.

MODULE 3 is focused of the currently most important available techniques in minimally invasive spine surgery. This module also contains a **HUMAN CADAVER WORKSHOP** lasting several hours.

As before a selected variety of innovate neurosurgical products will be presented in the accompanying **INDUSTRIAL EXHIBITION**.

We are looking forward to welcoming you in Homburg-Saar for a week full of new exciting experiences.

Sincerely yours,

Prof. Dr. Joachim Oertel
Head of the Department of Neurosurgery

Prof. Dr. Bernhard Schick
Head of the Department of Otolaryngology
