Airport

We recommend **Frankfurt International Airport**, which is located approx. 150 kilometers away from Homburg. The airport is also the largest airport train station in Germany and offers connections to any German city with German Rail (**Deutsche Bahn**). From the long distance station you can take a train to Homburg-Saar main station. For further information, please visit the following websites:

- www.frankfurt-airport.de
- www.bahn.de

The next smaller airport is Saarbrücken-Ensheim (approx. 35 km away from Homburg-Saar). There you have to take a cab to Homburg-Saar, because otherwise you have to drive by bus and train. For further information please visit:

Under the auspices of **WFNS**, **IFNE**, **ISMISS** and **WSCS**

Dear colleagues,

it is my pleasure to announce the

8th Homburger Neuroendoscopy Week
at the
Department of Neurosurgery
Saarland University, Homburg-Saar / Germany,

Due to the success of the last years, we offer 3 MODULES in 2019.

MODULE 1 is focused on the interdisciplinary approach to the skullbase in cooperation with our ENT-DEPARTMENT of Professor Schick. The new developments in endoscopic skullbase surgery are presented to you by an international faculty. Additional HANDS-ON COURSES will provide demonstrations of endoscopic techniques as well as time to enhance your own surgical skills on HUMAN CADAVERS. Interdisciplinary LIVE SURGERIES will be presented to you in HD-technology and in an interactive setting.

MODULE 2 will focus on intraventricular endoscopy and pediatric neurosurgery. HUMAN CADAVERS and ANIMAL MODELS are also included.

MODULE 3 is focused on the currently most important available techniques in minimally invasive spine surgery. This module also contains a HUMAN CADAVER WORKSHOP lasting several hours.

As before a selected variety of innovative neurosurgical products will be presented in the accompanying INDUSTRIAL EXHIBITION.

We are looking forward to welcoming you in Homburg-Saar for a week full of new exciting experiences.

Sincerely yours,

Joachim Oertel
